SUMMARY

Full Stack MERN Developer with knowledge of React.js, Node.js, Express.js, MongoDB, and responsive web development. Skilled in building frontend and backend applications with strong problem-solving abilities and interest in AI-powered web solutions.

EDUCATION

Indore Institute Of Science And Technology
Bachelor of Technology in Computer Science and Engineering

Indore, Madhya Pradesh
2027

PROJECTS

Fake News Detection Tool

- Developed a Fake News Detection web application using Machine Learning models to classify news content as fake or real.
- Implemented text preprocessing, prediction logic, and real-time user input handling for accurate content analysis.
- Built responsive frontend interfaces and optimized backend performance for smooth user experience.
- Tech Stack: React.js, Express.js, MongoDB, JavaScript, Machine Learning.

Local Service Finder

- Developed a Local Service Finder platform to help users discover nearby services such as electricians, plumbers, tutors, and repair workers.
- Implemented category-based search, filtering, and responsive UI features for better user experience.
- Designed backend APIs and integrated MongoDB for efficient service data management.
- Tech Stack: React.js, Next.js, Express.js, MongoDB, JavaScript.

CERTIFICATIONS

C++ Programming Internship (4 Weeks) | CodeSoft — 2024

- Solved 20+ coding problems and strengthened problem-solving and core programming concepts.

HackNova 2026 Hackathon Certificate

- Participated in HackNova 2026 organized at Bhabha University and collaborated on project development and teamwork.

SKILLS

- **Programming:** C++, Java, JavaScript, Object-Oriented Programming
- **Frontend:** HTML, CSS, React.js, Next.js
- **Backend:** Express.js
- **Database:** MongoDB, MySQL
- **Tools:** Git/GitHub, VS Code, IntelliJ IDEA
